Product Overview

High-Performance Wireless Connectivity

This USB 2.4GHz Wireless Network Adapter provides reliable and high-speed internet connectivity for desktops and laptops. It supports multiple IEEE 802.11 standards and features advanced MIMO technology to ensure an extended range and stable performance. Compact and portable, this adapter is designed for seamless integration and ease of use in diverse professional or home networking environments.

Technical Specifications

Peak Data Rate

150 Mbps

Peak Data Rate

90 Mbps

Peak Throughput

Detailed Transmission Rates

Standard	Rates (Mbps)
802.11b	1, 2, 5.5, 11
802.11g	6, 9, 12, 18, 24, 36, 48, 54

Supported IEEE Standards

802.11b, 802.11g, 802.11n

Certifications & Compliance

Regulatory & Standards Compliance

FCC • CE • RoHS • Wi-Fi Certified • WHQL • Cisco CCX

Features

Key Functionalities

- Soft AP support
- WPS setup
- Power Management
- MIMO technology for range
- Detachable antenna support
