

USB-A to Right-Angle Type-C Braided Cable

This Type-C USB cable is designed for rapid charging and dependable data transmission. It features a durable braided exterior and a right-angled Type-C connector, encased in aluminum alloy, to minimize cable stress.

Product Overview

Professional Charging & Data Solution

This USB-A to right-angle Type-C braided cable is designed for high-performance connectivity in professional environments. Featuring durable nylon braiding and aluminum alloy connector housings, it offers exceptional resistance to wear and tear. The right-angle connector design effectively minimizes cable stress, making it an ideal choice for use with smartphones, tablets, and laptops in tight spaces.

Technical Specifications

Charging Performance

2.4 A Output Current

Available Lengths

- 0.5m
- 1m
- 2m

Connector Type

USB 2.0

Construction & Durability

Materials

Nylon, Aluminum alloy, TPE, High density nylon

Connector Housing

Aluminum alloy

Certifications & Compliance

Compliance

ROHS • CE • FCC
