USB Battery Charger

This is a compact and portable battery charger for electronic devices. It features a USB interface for versatile charging.

Product Overview

Compact Power Solution

This compact and portable battery charger is engineered for reliable power delivery to various electronic devices. Designed with a convenient USB interface, it offers versatile charging capabilities for professional applications. Its robust build ensures consistent performance for equipment requiring standard USB power inputs.

Technical Specifications

Part Number	50107258-001
Input Voltage	5 VDC
Input Current	1 A
Output Voltage	4.2 VDC
Output Current	0.55 A

Compliance and Standards

Regulatory Compliance	21 CFR 1040.10, 21 CFR 1040.11, WEEE

Manufacturing Details

Country of Origin	China
Production Date	07/15
