

USB Data Cable with Proprietary Connector

This is a USB data cable used for data transfer. It features a standard USB-A connector on one end and a proprietary connector on the other.

Overview

Reliable Data Transfer and Power Connectivity

This high-quality USB data cable is designed to provide stable and efficient connectivity for compatible electronic devices. Featuring a standard USB-A interface on one end and a specialized proprietary connector on the other, it ensures secure data transmission and reliable power delivery. The integrated ferrite bead helps to minimize electromagnetic interference, maintaining signal integrity during operation.

Technical Specifications

Host Connector	USB-A
Device Connector	Proprietary
Interference Protection	Yes
Cable Color	Black

Features

Key Features	Data Transfer, Charging, Ferrite Bead Shielding
--------------	---
