

USB Type-C to Type-C Charge and Data Cable

USB Type-C to Type-C cable supports both charging and data transfer. It can be used to connect smartphones, tablets, laptops, and other compatible devices.

Product Overview

High-Performance Connectivity

This USB Type-C to Type-C cable is engineered for seamless power delivery and high-speed data synchronization. Supporting USB 3.1 Gen 1 & 2 standards, it ensures stable performance for modern laptops, smartphones, and tablets. With a robust pure copper conductor and a flexible TPE jacket, this cable is designed to meet the rigorous demands of professional B2B applications.

Technical Specifications

Data Transfer Speed

10 Gbps

Max Transfer Speed

Maximum Current	3 A
Interface Standard	USB 3.1 Gen 1, USB 3.1 Gen 2

Construction & Materials

Conductor Material	Pure Copper
Jacket Material	TPE
