Overview

High-Efficiency Quick Charging

This USB wall charger features advanced Quick Charging 3.0 technology, designed to deliver up to three times faster charging speeds compared to standard adapters. With versatile power delivery options and multiple charging modes, it ensures efficient and reliable power for a wide range of smartphones, tablets, and USB-powered devices. The unit is built with safety in mind, offering multiple layers of protection for secure, long-term use.

Technical Specifications

Charging Output Modes

Voltage	Current
5V	3.0A
9V	2.0A
12V	1.5A

Maximum Power Output

18 W
Max Power

Input Voltage Range	100-240V, 50-60Hz
