

Utility Cargo Tricycle

This tricycle is designed for utility and cargo transport. It features a sturdy cargo bed with reinforced sides and a tubular frame for enhanced durability.

Product Overview

Robust Utility Cargo Tricycle

The 150ZH-22 utility tricycle is engineered for heavy-duty cargo transport and professional logistics applications. Featuring a stable three-wheel configuration and a reinforced cargo bed, it provides reliable performance for moving goods across various environments. Its motorcycle-inspired design ensures operator comfort while maintaining the rugged durability required for demanding commercial use.

Technical Specifications

Model	150ZH-22
Configuration	Three-wheel, Cargo Bed, Motorcycle-style front

Features

Key Features

- Reinforced cargo bed sides
- Tubular frame construction
- Headlight and integrated mirrors
- Internal combustion powertrain

Primary Applications

Commercial transport • Goods delivery • Logistics
