

Utility Cargo Tricycle

This tricycle is designed for utility and transportation, featuring a cargo bed for carrying goods. Its robust steel frame ensures durability for demanding tasks.

Overview

Built for Reliable Utility

The ST150ZH Utility Cargo Tricycle is engineered for demanding transportation tasks, offering a robust steel frame construction that ensures long-term durability. Its stable three-wheel design, featuring dual rear wheels, provides reliable balance while navigating with heavy cargo. Equipped with an efficient air-cooled four-stroke engine and a spacious cargo bed with metal railing, this vehicle is a versatile solution for professional goods delivery.
