

Utility Motorized Tricycle

This three-wheeled vehicle is designed for utility and transportation purposes. It features a 107ml engine, drum brakes, and a maximum load capacity of 200kg.

Overview

Robust Utility Three-Wheeler

The HL110ZH-4 utility tricycle is a versatile and durable transportation solution designed for efficiency. With a 107ml engine and a 200kg load capacity, it offers reliable performance for daily logistical tasks. Its compact dimensions and air-cooled engine make it an ideal choice for navigating tight spaces while maintaining operational stability.
