

Utility Tricycle with Cargo Area

This tricycle is designed for utility or recreational purposes. It features a rear cargo area and sturdy frame, making it suitable for carrying goods or passengers on paved surfaces.

Product Overview

Versatile Utility Tricycle

This robust tricycle is engineered for reliable utility transport in professional or recreational settings. Featuring a durable frame and a spacious rear cargo area, it offers a stable platform for hauling goods or passengers. The design incorporates safety-conscious elements such as front lighting and ergonomic seating with back support, ensuring performance on paved surfaces.
