

Utility Tricycle with Cargo Bed

This tricycle is designed for utility and transportation purposes. It features a sturdy frame and a cargo bed suitable for hauling goods.

Product Overview

Built for Reliable Utility

The 150ZH-19 utility tricycle is a robust solution engineered for demanding cargo transportation and logistics. Designed with a heavy-duty frame and a spacious cargo bed, it provides excellent stability and efficiency for both commercial delivery services and agricultural applications. Its integrated suspension and durable tire system ensure high performance and consistent handling across varied terrain types.
