

UTP CAT6 Ethernet Cable

This UTP CAT6 LAN cable is designed for reliable data transmission in networking applications. It supports Gigabit Ethernet and other high-speed networking protocols, ensuring optimal performance and minimal signal loss.

Product Overview

High-Performance CAT6 Networking Solution

This unshielded twisted pair (UTP) CAT6 cable is engineered for robust and high-speed data transmission in modern networking environments. Featuring four twisted pairs for superior interference and crosstalk reduction, it supports Gigabit Ethernet speeds to ensure reliable connectivity for computers, routers, and switches. Built for both residential and commercial applications, the cable offers versatile jacket material options for optimal durability.

Technical Specifications

Certifications

CE • RoHS • CPR

Cable Category

CAT6

Core Material

BC, CCA

Jacket Material

PVC, PE

Performance Metrics

Transmission Speed

1 Gbps

Maximum Data Rate

Internal Construction

- 8 conductors
- 4 twisted pairs
- Unshielded Twisted Pair (UTP)

Manufacturing Origin

Origin

Foshan, China
