

# UTP4P CAT6 Hybrid Cable

Hybrid cable featuring UTP4P CAT6, +1XRG6+2P CAT3+GJFJBV2C configurations. It is designed for versatile connectivity solutions.

## Product Overview

### Versatile Hybrid Connectivity

This hybrid cable is engineered to support complex, multi-functional network installations by integrating diverse transmission standards into a single, manageable cable solution. It combines UTP4P CAT6, 1XRG6, 2P CAT3, and GJFJBV2C configurations to streamline infrastructure deployment. Designed for efficiency, it reduces the need for multiple cable runs, making it an ideal choice for integrated data, video, and communication systems.

## Technical Configuration

### Cable Components

- UTP4P CAT6
- 1XRG6
- 2P CAT3
- GJFJBV2C

### Cable Type

Hybrid • Multi-purpose
