Product Overview

Advanced UV-C Sanitizing Nozzle

This specialized vacuum cleaner nozzle integrates UV-C light technology to sanitize surfaces while effectively removing dust, bacteria, and allergens. Designed for versatile use, it can be attached to standard vacuum cleaners for deep cleaning carpets and upholstery or operated independently for sanitizing bedding. With its built-in vibrating pad and strong suction, it ensures a thorough removal of dust mites and acarids, making it an essential tool for maintaining a healthier living environment.

Technical Specifications

Voltage	4.5 V
Power Consumption	5 W

Dimensions

Product Dimensions	24.3 x 36 x 14.7 cm
Net Weight	0.6 kg

Logistics

Container Loading Capacity

Container Type	Quantity (pcs)
20 ft	3120
40 ft	6528
40 ft HQ	7296

Packaging Details	12 units per carton, Carton size: 67x58x57.5cm
-------------------	--

Features

Core Functionalities

- UV-C bacterial and acarid elimination
- Mechanical vibrating pad for mite removal
- Standardized tube and joint connection
- Safety mechanism to prevent accidental UV-C exposure
- On/Off switch for independent UV operation
