

UV Germicidal Lamp with Quartz Tube

This quartz tube UV germicidal lamp is designed for effective sterilization and disinfection. It utilizes ultraviolet light to eliminate bacteria, viruses, and other microorganisms.

Product Overview

Professional UV Germicidal Solution

This high-efficiency quartz tube UV germicidal lamp is designed for rapid indoor sterilization and disinfection. With a 38W power rating and a versatile integrated timer system, it provides a reliable method for eliminating airborne and surface microorganisms. Its durable construction and compact design make it an ideal choice for maintaining sterile conditions in professional and clinical environments.

Key Features

Quartz Tube • Remote Controlled • Indoor Sterilization

Technical Specifications

Power Performance

220 V Voltage	50 Hz Frequency	38 W Power
-------------------------	---------------------------	----------------------

Programmable Timer

15 mins, 30 mins, 60 mins

Dimensions and Packing

Dimensions

Item	Dimensions (mm)
Product Size	200 x 140 x 420
Package Size	235 x 170 x 465

Logistics Data

- Carton Packing: 6 pcs/ctn
- Carton Size: 49 x 53 x 48.5 cm
