

UV Resistant Nylon Cable Tie

These nylon cable ties are made from durable PA66 material and are UV resistant. They are available in multiple sizes and colors.

Overview

Professional Grade Nylon Cable Ties

These high-performance nylon cable ties are engineered from durable PA66 material, offering superior UV resistance and long-lasting reliability. Designed to withstand both extreme heat and low ambient temperatures, they are suitable for demanding indoor and outdoor environments. With a wide range of available sizes and high tensile strength, they provide an ideal solution for secure bundling in electrical, automotive, and networking applications.

Technical Specifications

Available Colors

Natural • Black

Material	PA66 (Nylon)
Working Temperature	-35 °C to 100°C
Certifications	ISO9001, CE, RoHS

Available Sizes

Standard Dimensions

Width (mm)	Available Lengths (mm)
2.5	100, 120, 150, 200
3.6	100, 150, 200, 250, 300, 350, 370, 400
4.8	150, 200, 250, 300, 350, 370, 400, 450, 500
7.2	200, 250, 300, 350, 370, 400, 450, 500, 550
9	600, 650, 700, 760, 800, 920, 1000, 1200
