Product Overview

Robust Industrial Lifting Solution

The VA Type Lever Block is a high-performance lifting device engineered for demanding industrial environments. Featuring a high-strength alloy steel chain and secure safety latches on both hooks, it ensures maximum reliability during heavy-duty operations. Its compact design facilitates precise lifting, pulling, and tensioning, making it an essential tool for construction, manufacturing, and maintenance tasks where space is limited.

Technical Specifications

Safety Mechanisms

- Upper hook safety latch
- Lower hook safety latch
- High-strength alloy steel chain construction

Ideal Use Cases

- Construction lifting
- Manufacturing assembly
- Maintenance tasks
- Heavy-duty pulling and tensioning

Available Load Capacities

3T
