

Vacuum and Mopping Power Brush

This versatile cleaning attachment is designed for use with compatible vacuum cleaners. It combines vacuuming and mopping functionalities, enabling efficient cleaning of hard floors.

Product Overview

Versatile Cleaning Performance

The Vacuum and Mopping Power Brush offers a professional-grade cleaning solution that integrates vacuuming, mopping, and sterilization into a single operation. Designed with a twin-motorized system and UV-C technology, it ensures efficient debris removal and sanitization on hard floors. This attachment features an easy-moving design and anti-collision technology, making it ideal for households with pets.
