

Vacuum Cleaner Disposable Dust Bag

This disposable dust bag is designed for vacuum cleaners. It is made of durable, multi-layer filtration material to trap dust, dirt, and allergens effectively.

Product Overview

High-Efficiency Filtration

This disposable dust bag is engineered with multi-layer filtration technology to capture dust, dirt, and allergens with high efficiency. Designed for single-use convenience, it ensures your vacuum cleaner maintains optimal suction performance throughout its lifespan. The sturdy cardboard mounting collar allows for quick, secure attachment to the vacuum intake port, making replacement clean and simple.

Technical Specifications
