

Vacuum Cleaner Disposable Dust Bag

This disposable dust bag is designed for vacuum cleaners. It is constructed from durable, multi-layered paper to effectively trap dust and debris.

Product Overview

Professional Filtration Solution

This disposable dust bag is engineered for high-performance vacuum cleaning applications. Constructed from premium multi-layered paper, it ensures efficient dust capture while maintaining optimal airflow for consistent suction power. Its robust cardboard mounting collar allows for a secure, airtight fit to the vacuum intake, simplifying the replacement process and ensuring hygienic disposal.

Technical Details

Material Composition	Multi-layered paper
Key Features	Single-use, Easy disposal, Hygienic, Cardboard mounting collar
Compatibility	Standard intake port
Maintenance Impact	Ensures clean operation and prevents debris buildup within the vacuum unit
