

Vacuum Cleaner Dust Collection Bag

This disposable bag is designed for vacuum cleaners. It effectively collects dust and debris during the cleaning process.

Product Overview

High-Efficiency Dust Collection

This disposable vacuum cleaner bag is engineered for optimal dust and debris containment. Featuring a multi-layered construction, it ensures superior filtration to prevent leakage during operation. The robust design includes a precise collar attachment, making it an essential component for maintaining clean environments in professional settings.

Technical Specifications

Key Features

- High-filtration efficiency
- Secure nozzle attachment
- Disposable design for hygiene
- Reinforced structural integrity

Material Composition	Multi-layered, Synthetic Fiber, Paper
Mounting Mechanism	Cardboard or Plastic Collar
