

Vacuum Cleaner Dust Collection Bag

This vacuum cleaner bag is designed to fit specific vacuum cleaner models, ensuring efficient dust collection. It features a mounting collar for secure connection to the vacuum cleaner's intake.

Product Overview

High-Efficiency Dust Collection

This premium vacuum cleaner dust collection bag is engineered for optimal airflow and effective debris containment. Featuring a durable mounting collar, it ensures a secure, airtight connection to the vacuum cleaner intake, preventing dust leakage during operation. Designed for reliability, this replacement part helps maintain consistent suction power and keeps your cleaning environment cleaner for longer periods.

Technical Specifications

Material Type	High-density filtration paper/composite
Design	Standard sealed rectangular bag
Mounting Mechanism	Integrated rigid mounting collar
Application	Vacuum cleaner replacement, Dust collection, Debris containment
