Overview

Dual-Action Cleaning Performance

This electric mop head attachment transforms your vacuum cleaner into a dual-action floor care system, allowing you to vacuum and mop simultaneously. Engineered for efficiency, the dual-spin motor operates at 120 RPM to cut through stubborn grime on hard surfaces like wood, vinyl, and ceramic tile. The unit features a lightweight, versatile design that not only cleans but also supports floor waxing for a polished finish.

Compatibility & Power

Compatible Models	V7, V8, V10, V11
Voltage Range	14.4V - 29.6V
Motor Power	30 W

Performance Metrics

Key Performance Metrics

120 RPM

Rotation Speed

65 dB

Noise Level

850 g

Weight

Cleaning Efficiency

7-10 cubic meters per minute

Physical Specifications

Dimensions

Feature	Measurement
Spin Mop Diameter	150 mm
Nozzle Width	290 mm
