

Vacuum Cleaner Motor 1200W

This is a high-performance vacuum cleaner motor assembly designed for efficient and reliable operation. The motor features an integrated cooling system to prevent overheating and maintain consistent performance.

Product Overview

High-Performance Vacuum Motor

This high-performance vacuum cleaner motor assembly is engineered for efficient and reliable operation in a wide range of vacuum cleaner models. It features robust construction with durable materials to ensure an extended service life and consistent suction power. The integrated cooling system effectively prevents overheating, while the design prioritizes quiet operation for improved user experience.

Technical Specifications

Rated Power

1200 W

Power Output

Input Voltage	120 V
Airflow Capacity	90 CFM
Noise Level	75 dB

Compliance & Quality

Standards Compliance	Industry Safety Standards, Certified
