

Vacuum Cleaner Paper Dust Bag

This is a disposable dust bag for vacuum cleaners. The bag, made from durable paper, features a cardboard collar with a circular opening to securely attach to the vacuum cleaner's intake port.

Product Overview

High-Efficiency Dust Filtration

This disposable dust bag is engineered from durable paper material, providing an effective solution for capturing dust, dirt, and debris during vacuum operation. Designed with a standard cardboard collar for a secure and easy attachment, it prevents contaminants from recirculating into the environment. Its optimized trapezoidal shape ensures maximum capacity and consistent airflow, maintaining the vacuum cleaner's suction performance over time.

Technical Specifications

Material	Paper
Design Features	Disposable, Trapezoidal Shape, Cardboard Collar
Primary Function	Dust and debris collection

Usage Benefits

Key Benefits

- Hygienic disposal process
- Prevents dust recirculation
- Maintains vacuum efficiency
