

Variable Speed Hammer Drill for Masonry

This hammer drill is a versatile power tool designed for drilling into a variety of materials, including wood, metal, and masonry. It features a robust motor that delivers high torque and speed for efficient drilling performance.

Product Overview

Versatile Hammer Drill for Professional Use

This variable speed hammer drill is designed for high-performance drilling across masonry, wood, and metal applications. Featuring a robust 500W motor and an integrated impact function, it delivers the necessary force for demanding tasks like concrete drilling. The tool includes adjustable speed control and a depth gauge to ensure precision and comfort during extended professional operation.

Technical Specifications

Input Power	500 W
Rated Voltage	230 V
Frequency	50 Hz

Performance Metrics

Key Performance Metrics

2900 r/min
No Load Speed

46400 bpm
Impact Frequency

Drilling Capacity

Max Drilling Capacities

Material	Max Capacity
Steel	13mm
Concrete	13mm
Wood	25mm

Features & Accessories

Included Accessories

- Side handle
- 13mm Key chuck
- Plastic depth gauge
- Instruction manual

Chuck Capacity	13 mm
