

Variable Speed Impact Drill

This professional power tool is designed for drilling and impact applications. It features a robust chuck for secure bit retention, variable speed control for precision, and an ergonomic grip for comfortable handling.

Product Overview

Professional Variable Speed Impact Drill

This high-performance impact drill is engineered for versatility and reliability across various drilling and impact applications. Featuring a robust 850W motor and variable speed control, it provides the precision needed for working with wood, metal, and masonry. Designed with ergonomics in mind, it ensures comfortable handling during extended use, making it an essential tool for professional workshops and construction sites.
