

Variable Speed Jigsaw for Wood and Metal

This jigsaw is designed for cutting intricate shapes and curves in materials like wood, metal, and plastic. Its adjustable speed settings allow users to tailor the cutting speed to the material.

Product Overview

Versatile Cutting Performance

This variable speed jigsaw is engineered for precision cutting across wood, metal, and plastic materials. Featuring a powerful 570W motor and adjustable speed settings, it allows operators to tailor performance to the specific material density for optimal results. Its ergonomic build ensures user comfort during extended operation, while the integrated dust extraction system maintains a clear line of sight for accurate work.

Technical Specifications

Voltage Compatibility

- 220V/50Hz
- 110V/60Hz

Power Input

570 W

Performance Metrics

No-load Speed

800 RPM

Min Speed

3000 RPM

Max Speed

Cutting Capacity

Material	Max Depth
Wood	65 mm
Steel	6 mm

Features

Key Features

Variable Speed • Dust Extraction • Tool-free Blade Change • Adjustable Bevel
