

Variable Speed Jigsaw with Quick-Release Chuck

This jigsaw is designed for cutting wood, plastic and metal. It features a variable speed control ranging from 0 to 3100 RPM and a quick-release chuck for easy blade changes.

Product Overview

Professional Variable Speed Jigsaw

This versatile power tool is engineered for precision cutting across wood, plastic, and metal surfaces. Featuring a high-performance 550W motor and a variable speed range of 0-3100 RPM, it offers the control needed for both delicate and aggressive cuts. Designed with user convenience in mind, it includes a quick-release chuck for rapid blade changes and an integrated dust extraction port to maintain a clean workspace.

Technical Specifications

Rated Input Power	550 W
Voltage	230/120V
Frequency	50/60Hz

Performance Metrics

No-load Speed

3100 r/min
Max Speed

Cutting Capacity

Material Type	Capacity
Wood/Plastic	65mm
Metal	8mm

Features

Key Features

- Variable speed control
- Quick-release blade chuck
- Anti-lock safety switch
- Pendulum action selector
- Dust extraction port

Suitable Materials | Wood, Plastic, Metal
