Overview

Professional Variable Speed Scroll Saw

This high-performance SBS-16ALFP scroll saw is designed for precision woodworking, offering variable speed control ranging from 400 to 1600 strokes per minute. Built with a robust cast iron base and steel work table, it provides the stability required for intricate cuts in wood, plastic, and other materials. Enhanced features such as an integrated LED light, a convenient foot pedal switch, and an included 100-piece accessory kit ensure versatility and ease of use for professional artisans.
