

Vegetation Clearing Brush Cutter

This brush cutter is a powerful tool designed for clearing dense vegetation, brush, and weeds. It delivers reliable power and efficient cutting performance due to its high-performance engine.

Product Overview

Professional Vegetation Clearing

This high-performance brush cutter is engineered for clearing dense vegetation, brush, and weeds with efficiency and reliability. Designed with a powerful 2-stroke engine and ergonomic features, it offers comfortable operation even during extended use. Its durable construction makes it an ideal tool for demanding landscaping and maintenance tasks.

Technical Specifications

Engine Performance

1.45 kW

Power Output

51.7 cm

Cutting Width

7.8 kg

Net Weight

Engine Specifications

- Type: Single cylinder, 2-stroke, air-cooled
- Power Type: Petrol / Gas
- Carburetor: Diaphragm type
- Pipe Diameter: 26mm

Design & Features

Key Features

Anti-slip • Forced Air Cooling • Height Adjustable Handles • Loop Handle

Cutting System

Straight Metal Blade (3T Metal Blade included)

Compliance

Certifications

CE, EMC
