Product Overview

Vehicle Protection & Access

This durable black side bar is engineered for both vehicle protection and enhanced aesthetics. Constructed from high-strength steel with a powder-coated finish, it offers superior corrosion resistance and impact protection against road debris. Designed for practicality, it features a non-slip surface for secure footing and ensures easy, no-drill bolt-on installation.

Technical Specifications

Construction Material	High-strength steel
Surface Finish	Black powder-coated
Installation Method	Bolt-on (no drilling required)

Key Features

Performance Metrics

1 High Corrosion Resistance	1 No Drilling Required
