

# Vehicle Roof Cargo Basket

This roof basket is designed for vehicles with roof rails or crossbars, providing extra storage for luggage and gear. Constructed from steel with a weather-resistant coating, it offers a secure mounting system and streamlined design.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Cargo Solution

This universal roof cargo basket is designed to maximize your vehicle's storage capacity for luggage, camping gear, and outdoor equipment. Constructed from durable, weather-resistant steel with a sleek black finish, it provides a reliable and secure mounting platform. The included wind fairing significantly reduces noise and drag, ensuring a quieter and more efficient travel experience on the road.

## Technical Specifications

### Load Capacity

**100 kg**

Maximum Load

### Dimensions

127.5cm x 103.5cm x 20.5cm
