Product Overview

Maximize Your Travel Potential

This roof cargo carrier is specifically engineered to expand your vehicle's storage capacity by up to 600 liters, making long-distance travel and outdoor adventures significantly more convenient. Featuring a sleek, streamlined design, the unit minimizes wind resistance and noise for a quieter, more comfortable journey. Constructed from durable, non-toxic, and environmentally friendly materials, it provides superior resistance to high temperatures and freezing conditions, ensuring long-lasting performance.

Key Features

Maximum Capacity

600 L

Internal Volume

Design Advantages

Aerodynamic, Low Noise, Streamlined, Weather-resistant

Construction

Material Characteristics

- Non-toxic
- Environmental protection material
- High temperature resistance
- Antifreeze resistance

Installation & Compatibility

Security

Secure Locking Mechanism

Installation Method

Self-designed accessory mounting system for convenient installation
