

Vehicle Roof Rail Set

This set provides a base for carrying cargo like luggage and sports equipment on a vehicle's roof. It includes two durable roof rails and four mounting brackets ensuring secure attachment and long-lasting performance.

Product Overview

Rugged Vehicle Roof Rail Set

This durable roof rail set is designed to enhance your vehicle's cargo-carrying capacity, providing a stable foundation for luggage, bicycles, and outdoor equipment. The aerodynamic design is engineered to significantly reduce wind noise and drag while driving. With a sleek black finish, these bars offer a professional look while maintaining structural integrity against harsh weather elements.

Technical Specifications
