

Vehicle Tail Light Assembly 2003-2008

This vehicle tail light assembly is designed for model years 2003-2008. It features a multi-bulb configuration for brake light, turn signal, and reverse light functions.

Product Overview

Vehicle Tail Light Assembly

This tail light assembly is a high-quality, direct replacement designed for vehicles manufactured between 2003 and 2008. Engineered to meet DOT and SAE standards, it offers reliable performance for brake, turn signal, and reverse light functions. The durable acrylic lens and high-impact plastic housing ensure long-term resistance to environmental factors and road debris.
