

Ventilated Blue-Green Structure

This is a blue-green structure with a blue tiled roof and ventilation grilles. The sides and bottom feature a brick-like pattern.

Product Overview

Versatile Ventilated Infrastructure

This blue-green ventilated structure features a robust design optimized for external placement. It is equipped with integrated ventilation grilles at the peak, ensuring proper airflow for internal components or sheltered areas. The aesthetic incorporates a decorative brick-like texture on the lower sections, combining functional durability with a professional appearance.
