

Ventilated Stackable Plastic Storage Crate

This durable plastic crate is designed for storage and transportation. It features a ventilated design and integrated handles, with approximate dimensions of 600mm x 400mm x 300mm and a weight capacity of 25kg.

Product Overview

Professional Storage Solution

This durable ventilated plastic crate is engineered for optimal airflow and efficient storage across warehouse, retail, and home environments. Its modular, stackable design maximizes space utilization while the impact-resistant construction ensures longevity in demanding conditions. Integrated side handles provide ergonomic handling, making it an ideal choice for organized goods transportation and storage.
