

Ventilation Fan

Ventilation fans provide airflow for industrial environments. They are used in factories, warehouses, and other industrial facilities.

Product Overview

Portable Digital Entertainment Hub

This portable DVD player integrates a built-in digital TV tuner, offering a versatile solution for mobile entertainment. Designed for convenience, the device supports high-quality playback from various sources including DVDs, USB drives, and SD cards. Its compact design ensures that users can easily access their favorite movies and television broadcasts while traveling or in locations without traditional television infrastructure.

Technical Specifications
