

Vernier Caliper for Precision Measurement

This precision measuring instrument accurately determines internal and external dimensions, as well as depths. It is constructed from durable materials for long-lasting performance in various industrial and engineering applications.

Product Overview

Professional Precision Instrument

This high-accuracy vernier caliper is designed to meet the rigorous demands of industrial and engineering environments. It enables precise determination of internal dimensions, external dimensions, and depth measurements. Engineered for durability, it provides a reliable solution for quality control and technical manufacturing tasks.

Technical Specifications

Design Features

- Main scale for primary measurement
- Vernier scale for high-resolution readings
- Durable construction for long-term use

Measurement Capabilities

Internal Dimensions, External Dimensions, Depth Measurement

Compliance & Quality

Application Areas

Industrial Engineering • Quality Control • Manufacturing
