

Vertical Automatic Vacuum Sealer

This vertical automatic vacuum sealer is designed for efficient and reliable packaging. It features adjustable settings, a stainless steel work platform, and a control panel for industrial use.

Product Overview

Industrial Vertical Vacuum Sealing Solution

This vertical automatic vacuum sealer is engineered for high-efficiency packaging in industrial environments. Featuring a robust stainless steel construction, it offers reliable performance for various bag types and materials. The integrated control panel, complete with a precision pressure gauge and timer, ensures consistent and professional sealing results for every operation.

Technical Specifications

Orientation	Vertical
Material	Stainless Steel

Features

Mobility

Casters • Portable

Control Interface

- Adjustable Sealing Bar
- Pressure Gauge
- Integrated Timer

Usage

Suitable For	Industrial Use, Bag Sealing, Vacuum Packaging
