

Vertical Drilling Machine

This heavy-duty vertical drilling machine is designed for precision metalworking. It features a robust motor, adjustable worktable, and safety features for optimal performance and operator protection.

Overview

Professional Vertical Drilling Machine

This high-performance gear head drilling machine is designed for precision and reliability in professional workshop environments. It features a rigid base with integrated T-slots, accommodating large workpieces for versatile drilling, tapping, and reaming operations. Operators benefit from a fast-locking mechanism for the gear head and table, alongside convenient speed change levers for efficient adjustments.

Technical Specifications

Max Drilling Capacity	25 mm
Spindle Travel	140 mm
Spindle Taper	MT3
Throat Depth	225 mm

Work Area

Table Size	390 mm
Base Size	305x297mm
Max Distance Spindle to Table	620 mm
Max Distance Spindle to Base	1075 mm

Performance

Motor Power

0.75 kW

Max Motor Output

Accessories

Standard & Optional

- Standard: Drill Chuck
- Optional: Drill bit
