

Vertical Horizontal Turret Milling Machine

This turret milling machine is designed for both vertical and horizontal machining operations. It features a robust construction for stability and precision, with a geared head that allows for a wide range of spindle speeds.

Overview

Versatile Turret Milling Solution

The X6235WA is a high-performance turret milling machine designed for both vertical and horizontal machining tasks. Engineered for stability and precision, this machine features a robust build suitable for demanding toolroom and manufacturing environments. Its versatile design allows for flexible machining angles and efficient operation across a variety of materials.

Working Capacity

Table Size

1270 mm
Length

260 mm
Width

Table Travel (X/Y)

700 x 280 mm

Spindle Performance

Spindle Speeds

Speed Range	RPM Values
Low	80, 135, 210, 325, 660, 1110, 1750, 2720
High	160, 270, 420, 650, 1320, 2220, 3500, 5400

Spindle Taper

NT30, R8, NT40

Technical Specifications

Machine Weight

- Net Weight: 1650 Kg
- Gross Weight: 1750 Kg

Motor Power

3 Hp

Max Drilling Diameter

15 mm

Spindle Quill Travel

127 mm

Head Swivel Angle

Left/Right: +/-90 degree, Before/Behind: +/-45 degree
