

Vertical Lifting Elevator

This elevator is designed for vertical lifting applications. It provides a safe and efficient way to transport materials and personnel to different levels of a building.

Product Overview

High-Performance Lifting Chain

This heavy-duty black steel chain is engineered for demanding lifting and securing applications across construction, rigging, and towing sectors. Constructed from high-strength steel, each link is meticulously forged and welded to guarantee maximum load-bearing capacity and operational safety. The durable black finish provides essential corrosion protection while maintaining a professional appearance, making it a reliable solution for general-purpose heavy-duty tasks.

Technical Specifications

Material	High-strength steel
Surface Finish	Black, corrosion-resistant
Manufacturing Process	Forged, Welded

Applications

Primary Applications

- Construction
- Rigging
- Towing
- General-purpose lifting
- Securing applications
