

Vertical Power Strip Tower with USB Charging

Vertical power strip tower includes multiple Schuko sockets and USB charging ports. It is designed for efficient power distribution and space-saving organization of electrical connections.

Product Overview

Professional Power Distribution

This vertical power strip tower provides an efficient solution for managing multiple electrical connections in office and professional environments. Featuring a high-capacity 3600W power rating, it accommodates diverse equipment while minimizing desktop clutter through its vertical design. The unit integrates both AC outlets and USB charging ports, ensuring versatile power delivery for various devices.

Technical Specifications

Rated Power Capacity

3600 W
Max Power

16 A
Rated Current

230 V
Voltage

Outlet Configuration

- 8 AC Outlets
- 3 USB Charging Ports

Safety and Protection

Safety Certifications and Features	Overload Protector, 1700 Joules Surge Protection, Fireproof Material
Thermal Resistance	750 °C

Connectivity

USB Output	5V/3A Total (Max 2.4A per port)
Cable Length	2 m
