

Vertical Roller Mill Roller Tyre

This roller tyre is made with a high-quality chrome alloy. It is suitable for various vertical roller mill models to provide reliable and efficient grinding performance.

Product Overview

High-Performance Roller Tyre

This vertical roller mill roller tyre is engineered for superior durability and performance in demanding industrial grinding applications. Designed to offer a 10% longer lifespan compared to standard domestic alternatives, it provides an excellent balance of cost-efficiency and high-grade material quality. Its robust construction ensures exceptional resistance to abrasion, impact, and corrosion, making it a reliable choice for industries such as cement and electric power generation.

Technical Compatibility

Compatible Mill Types

FL Smidth ATOX, Loesche LM, GEBR. PFEIFFER, MPS, RM, CKP, MLS, MPF, TRM, HRM, ZGM, HP

Performance & Quality

Key Performance Metrics

10 %

Lifespan Improvement

Material Benefits

- High-chrome alloy construction
- Superior abrasion resistance
- High impact and corrosion resistance
- Designed for reduced maintenance downtime

Market Presence

Export Regions

Russia • Germany • Pakistan • Costa Rica • Argentina • Greece • Denmark • Colombia • Far East
