Product Overview

Professional Cleaning Performance

This vibrating steam mop provides an efficient, chemical-free sanitization solution for various hard floor types. Featuring dual steam settings and a specialized vibration polishing function, it effectively eliminates 99.9% of bacteria and viruses. The design prioritizes user convenience with a 360-degree swivel head, remote control integration, and rapid 45-second heating.

Technical Specifications

Water Tank Capacity

410 ml

Tank Capacity

26 min

Run Time

Power Consumption	1200 W
Input Voltage	220-240V, 50/60Hz
Power Cord Length	5 m
Ready Time	45 s
