

Vibrating Tile Installation Tool

This is a vibration tile beater. It is used for tile installation.

Product Overview

Professional Tile Installation Solution

This vibrating tile installation tool is designed to ensure a full bond and expel air from underneath large format tiles, significantly improving installation quality. It is suitable for both small and large area applications, accommodating tiles up to 3.2m by 1.6m. Equipped with a rechargeable battery, it offers portable convenience, while its dual functionality allows it to serve as a reliable suction cup for lifting 60x60cm tiles.

Technical Specifications

Battery Capacity	2000 MA
Power Source	Yes

Performance

Maximum Tile Dimensions	3.2m x 1.6m
Suction Cup Capacity	60cm x 60cm

Compliance

Certifications	CE
