

# Video Camera

This video camera is designed for capturing high-resolution video. It is suitable for professional use in various environments.

## Overview

### Professional Video Capture Solution

This video camera is engineered for high-performance imaging, providing exceptional clarity and reliable operation in diverse recording environments. Designed to meet the demands of professional workflows, it offers robust construction and advanced optical capabilities for consistent visual output. Its versatile design ensures seamless integration into various recording setups.

## Technical Specifications

### Key Performance Metrics

**1080 p**  
Resolution

**60 fps**  
Frame Rate

Device Type	Professional Video Camera
Camera Usage	Professional, Commercial, High-Definition

## Certifications and Standards

### Quality Standards

ISO 9001 • CE • RoHS
