

# Vintage Bicycle Rear Derailleur

This vintage bicycle rear derailleur is designed for shifting gears on a multi-speed bicycle. It features a parallelogram mechanism for lateral movement, jockey wheels for chain engagement, and adjustment screws for fine-tuning shifting performance.

## Product Overview

### Vintage Bicycle Rear Derailleur

This vintage rear derailleur is engineered for smooth and reliable gear shifting on multi-speed bicycles. Featuring a robust parallelogram mechanism for precise lateral movement and durable jockey wheels, it ensures consistent chain engagement. Designed for compatibility with various vintage drivetrain systems, this component is an ideal choice for restoration projects or maintenance of classic bicycles.
